Mrs. Analie L. Lomocso
Principal
St. Joseph school-La Salle

Dear Mrs. Lomocso,

Thank you for taking the time to review my resume. I have heard that you are looking for an AVRC staff. I believe my skill in technology is qualified to be an AVRC staff in your school. I am Dale Torre, an IT practitioner and at the same time a proud alumnus of St. Joseph School-La Salle batch 2010.

I have wanted to have my long-term job in the place where I think I am comfortable with. I believe St. Joseph School-La Salle is my dream place to work at, since I have had great memories in there. My mother has been a teacher in high school for more than thirty years and she is very passionate about her job which inspires me to see myself working in a school. This is a great opportunity for me to start seeing myself following my mother's footsteps.

AVRC is a perfect place for me to showcase my skills and passion since I have been involved in technology for a while. I have hoped to take part of making the school updated and upgraded when it comes to technology.

I have stated the detail of my skills and experiences in my resume. I hope you consider my application. Please do not hesitate to contact me on your convenient time. I am hoping for your response. Thank you and God bless.

Best Regards,

Dale Torre
